These exemptions include mandated homestead exemptions, optional homestead exemption, over-65 exemptions, disability exemptions, disabled veteran exemptions and 100% disabled exemptions. In order to qualify for the Homestead Exemptions the property owner must own and reside in the residence on January 1 and the owner or spouse claims no other Homestead Exemption. In January of each year the district mails Homestead Exemption applications to property owners who may qualify for this exemption. The application must be completed and returned to the district by April 30th. A property owner who turns 65 any time during the year qualifies for the Over 65 exemption and can apply for the exemption anytime during the year after the property owner turns 65. A property owner may file a late homestead application if it is filed no later than one year after the taxes become delinquent.

Ratio Study Analysis – Property Value Study

The property tax code requires that the Property Tax Assistance Division of Texas Comptroller Office conduct an internal ratio study in each appraisal district biannually to determine the degree of uniformity of and the median level of appraisal with each major property category in each school district. The districts values must be within the 5% margin of the state’s ratio study in order for the Comptroller to certify local value to the Commissioner of Education for school funding. For 2012, the Waller County Appraisal District was certified local value for all school districts within the boundaries of Waller County. The district’s next property value study will be performed in 2014.

2014 Methods and Assistance Program

In 2009, the Texas Legislature enacted a new law that required the Comptroller of Public Accounts to review appraisal districts every two years. The reviews inspect the governance, taxpayer assistance, operating procedures and the appraisal standards, procedure and methodology of each appraisal district. Mandatory requirements for each appraisal district include having up to date appraisal maps, onsite property inspections by the PTAD auditor match the districts property records, written procedures, PTAD auditor must be able to reproduce district's values using district's procedures and appraisal records and the ability to timely produce requested data of over 200 items. To acquire an "Exceeds" score, the district had to receive a rating of over 100% by having met all the mandatory and bonus requirements. The district received (3) Exceeds and (1) Meets in the four categories tested. The district will receive its next Methods and Assistance Audit in 2015.
